Course

SCI-101 - Introduction to Forensic Science

An introduction to the fundamental concepts of forensics science. This course will examine the principles, theories, and practices of forensic science as applied to the US legal system. Procedures and requirements for the collection, analysis, and interpretation of evidence by the appropriate experts will be discussed. The proper role of evidence and its application in legal proceedings will be examined. No prerequisites.

Grade Basis: L
Credit hours: 3.0
Lecture hours: 0.0
Lab hours: 0.0
