## Course Catalog - Nursing

### ADN - Associate of Science in Nursing (ADN)

**Type:**Major

The Associate of Science degree in Nursing is designed to prepare students for a career as registered nurses (RN) and also qualifies those graduates for admission into a RN to Bachelor of Science in Nursing program. The curriculum for the ADN major

consists of both classroom and clinical instruction. The ADN student will participate in supervised clinical experiences both in the lab setting and in several health care agencies in Kentucky. Students who successfully complete the program are eligible to take the National Council Licensure Examination-RN (NCLEX-RN).

The Nursing courses must be taken in the following sequence: NSG 115, (For TRD: NSG 125, NSG 130) (For EON: NSG 130, NSG 125), NSG 212, NSG 215, NSG 225, NSG 230. A minimum grade of C must be earned in each before progressing to the next level.

Students will be required to take nationally normed assessments, Assessment Technologies Institute (ATI), throughout the curriculum. The focus of ATI assessment and remediation programs is to supplement course work and enhances preparation to pass the NCLEX-RN.

Admission to the program is selective. The Midway University student desiring to enter a career in Nursing should be aware that a certain educational background or preparation is important to assure admission to the Nursing program. Applications for admission are received in the Nursing office during the spring semester for possible admission to the fall semester.

## **Student Learning Outcomes of Program**

- Demonstrate competency in knowledge of nursing and clinical skills necessary to provide safe, competent nursing care.
- Establish effective communication, both in speaking and writing.
- Demonstrate professionalism at all times.
- Develop leadership skills that include caring, compassion and responsibility.
- Utilize current evidence-based research in the provision of nursing care.
- Demonstrate interprofessional collaboration in delivering care to diverse and complex clients and families.
- Provide teaching about medications and health promotion and illness prevention to diverse and complex clients and families.
- Develop and present a capstone project (poster presentation) utilizing specific healthcare models for a complex situation.

## **Program Admission Requirements**

For acceptance into the ADN program the student must:

1. Complete a separate application specifically for admission to the nursing program. Admission to Midway University does not guarantee admission to the Associate Degree Nursing program. Application for the Associate Degree Nursing program will be sent to the student via DocuSign. For new EON students, this will be sent to them by their Admission counselor. For TRD transfer students the application will be sent by their Admission Counselor. For current students that are now ready to apply, this will be sent by the nursing office.
2. Submit official high school transcripts or GED score. Transfer students with more than 24 transferable hours do not need to submit a high school transcript.

3. Submit official college or university transcripts from a regionally accredited educational institution.
4. Cumulative GPA of 3.0. (A student applying for readmission to the Nursing program must meet the most current admission criteria for the University and the Nursing program and achieve a Midway University GPA of 2.5).
5. An ACT score of 21 or equivalent SAT score. Students with an earned associate, baccalaureate, and or master's degree from a regionally accredited institution are exempt from taking the ACT. **For Fall 2021 Applicants:** *The TEAS test will be replacing ACT requirement. A minimum score of 60 must be obtained on the TEAS Test in order to apply. The TEAS test may only be taken a maximum of three (3) times and scores are only valid for 24 months.*

For more information on TEAS, registration options and fees, and test prep recommendations: <https://www.atitesting.com/teas/register#:~:text=The%20ATI%20TEAS%2C%20or%20Test,entering%20the%20health%20science%20fields.&text=Questions%20are%20designed%20to%20test,and%20English%20and%20Language%20Usage>

6. Two years of high school algebra or one intermediate college algebra course with a grade of C or better.
7. Submit the following: evidence of immunizations or titer showing immunity for measles, mumps, rubella (MMR), Hepatitis B or waiver, Tdap; Varicella; Influenza; current negative tuberculin skin test or T-spot; current American Heart Association BLS certification; letter from health insurance company with evidence of health insurance prior to beginning clinical rotations to meet the health criteria of clinical facilities.
8. Students must have earned sufficient number of general education credit hours (minimum 12 credit hours and must include ENG 101, ENG 102 and BIO 190/191). Note that BIO 190/191, BIO 198/199, and BIO 225/226 must have been taken 5 years or less prior to admission to nursing program
9. Current Kentucky Medicaid Nurse Aide Certification SRNA (CNA), Certified Medical Assistant Certification (CMA), or Registered Medical Assistant (RMA);
10. LPN-RN Bridge: Licensed Practical Nurses (LPNs) who graduated from a regionally accredited institution within the last five (5) years may be awarded nine (9) credit hours (must be approved by the Dean). The LPN must meet all admission criteria and additional criteria below:
  - a. Successful completion of ENG 101, ENG 102, PSY/EDU 260, BIO 190/191, and maintain a minimum cumulative grade point average (GPA) of 3.0 for 12 credit hours with no grade below a C. Note that BIO 190/191, BIO 198/199, and BIO 225/226 must have been taken 5 years or less prior to admission to nursing program;
  - b. Proof of an active Kentucky or compact state LPN license and transcript from a regionally accredited LPN school;
  - c. Documentation of the above may result in a waiver of NSG 115 (must be approved by Dean)
11. Failure of a required non-nursing course for the second time will be reviewed individually and may preclude the student from being admitted/re-admitted to the Nursing program.

Eligibility to sit for the NCLEX-RN is determined by the Kentucky Board of Nursing. Individuals with criminal convictions within the last five (5) years may not be eligible. For more information, contact the Kentucky Board of Nursing.

Students who successfully complete the associate degree in Nursing and pass the NCLEX-RN may have a seamless transition into the RN-BSN Program.

---

## **BSN - Bachelor of Science in Nursing (BSN)**

**Type:**Major

The prelicensure Bachelor of Science in Nursing (BSN) offers the qualified student a 4-year program of study that combines general education courses with professional nursing theory courses and concentrated, supervised clinical experiences in several central Kentucky healthcare agencies. This program prepares students as providers of direct and indirect client care; as designers, coordinators, and managers of client care; and as members of the nursing profession. This role includes advocacy for clients, their families, and the nursing profession. Students who successfully complete the program are eligible to take the National Council Licensure Examination-RN (NCLEX-RN).

This traditional 4-year program is taught in person during the day on the Midway campus.

Students will be required to take nationally normed assessments from Assessment Technologies Institute (ATI) throughout the curriculum. The focus of the ATI assessment and remediation program is to supplement course work and enhance preparation to pass the NCLEX-RN.

Admission to the program is selective. The Midway University student desiring to enter a career in Nursing should be aware that a certain educational background or preparation is important to assure admission to the Nursing program. Applications for admission are received in the Nursing office during the spring semester for possible admission to the fall semester.

## **Student Learning Outcomes**

- Facilitate evidence-based health promotion, quality, safety, and patient-centered nursing care to individuals, families, groups, and diverse populations across the lifespan.
- Utilize effective interprofessional communication with community leaders to advocate for culturally sensitive care for individuals, families, groups, and diverse populations.
- Synthesize theoretical and empirical knowledge from nursing, scientific, and humanistic disciplines to incorporate evidence into practice and in development of capstone project.
- Explore professional attitudes, values, and expectations about aging to design patient-centered care for older adults and their families.
- Implement the nursing roles of member/advocate of the profession, communicator, educator, utilizer of research, life-long learner, collaborator, manager, and leader to

meet current and emerging needs of individuals, families, groups, and populations in diverse, complex health care systems.

- Integrate professional responsibility, accountability, standards, values, ethics, morals, and legal/political aspects into caring for the health of the public.

## Program Admission Requirements

To be considered for admission to the BSN program, the student must meet the following criteria:

1. Accepted to Midway University.
2. Prior to admission to the BSN Program, applicants must have earned a “C” or better in the required pre-requisite courses listed below:
  - BIO 190 Anatomy and Physiology I\*
  - BIO 191 Anatomy and Physiology I Lab\*
  - BIO 198 Anatomy and Physiology II\*
  - BIO 199 Anatomy and Physiology II Lab\*
  - ENG 101 College Writing I
  - ENG 102 College Writing II
  - CHM 150 Principles of Chemistry
  - MTH 140 College Algebra
  - NSG XXX Introduction to Professional Nursing
  - PSY 260 Human Growth and Development

\*Note that BIO 190/191, BIO 198/199, and BIO 225/226 must have been taken 5 years or less prior to admission to nursing program
3. Completion of 30 hours of university credit.
4. A minimum cumulative GPA of 3.0 on a 4.0 scale. The GPA includes all college credits taken as a high school or college student.
5. An ACT score of 21 or equivalent SAT score. Students with an earned associate, baccalaureate, and or master’s degree from a regionally accredited institution are exempt from taking the ACT. **For Fall 2021 Applicants:** *The TEAS test will be replacing ACT requirement. A minimum score of 60 must be obtained on the TEAS Test in order to apply. The TEAS test may only be taken a maximum of three (3) times and scores are only valid for 24 months.*

For more information on TEAS, registration options and fees, and test prep recommendations: <https://www.atitesting.com/teas/register#:~:text=The%20ATI%20TEAS%2C%20or%20Test,entering%20the%20health%20science%20fields.&text=Questions%20are%20designed%20to%20test,and%20English%20and%20Language%20Usage>.

6. Current Kentucky Medicaid Nurse Aid Certification (SRNA), Certified Medical Assistant (CMA), or Registered Medical Assistant (RMA);
7. Complete application for admission to the BSN Program during the Spring semester of Freshman year; admission decision will occur during Summer of Freshman year.
  - Documentation of hepatitis B immunization; immunity to measles, mumps, rubella and varicella; current negative 2-step tuberculin skin test or T-spot; current American Heart Association CPR BLS certification; letter from health

insurance provider verifying current coverage; criminal background check; urine drug screen; and current SRNA.

Completion of eligibility criteria does not guarantee admission to the BSN Program. Students who meet the above criteria will be ranked using the following Admission Ranking System. Spaces are limited to 20 students and those with the top 20 scores on this ranking system will be selected for admission.

Eligibility to sit for the NCLEX-RN is determined by the Kentucky Board of Nursing. Individuals with criminal convictions within the last five (5) years may not be eligible. For more information, contact the Kentucky Board of Nursing.

---

## **Bachelor of Science in Nursing for Registered Nurses (RN-BSN Completion Program) - Bachelor of Science in Nursing for Registered Nurses (RN-BSN Completion Program)**

**Type:**Major

The Bachelor of Science in Nursing (RN-BSN) for registered nurses offers the qualified student a program of study which combines general education courses with professional nursing theory and more complex critical thinking as well as non-traditional practica. Consistent with the mission and goals of the University, the RN-BSN program prepares nurses as leaders who can provide high-quality, safe health care to individuals, families, groups, and populations of diverse cultures in a variety of settings. The RN-BSN students learn to apply leadership concepts, skills, and decision making to promote high-quality nursing care, while providing health team coordination, oversight, and accountability for care delivery. Emphasis is placed on issues related to the older adult including promoting quality end-of-life care.

Students entering the RN-BSN completion program are RNs who have previously earned either an associate degree or diploma in nursing and have a current Kentucky or compact state RN license. The program consists of upper-level course work. Two tracks are available, a 12-month accelerated format (must have General Education and support courses completed) or a two-year format.

The RN-BSN program is designed to allow registered nurses the opportunity, essential to many RN-BSN students, to continue in the work force while earning a baccalaureate degree. The coursework is 100% online. The courses in this online program do not meet in-seat; however, students may schedule appointments with faculty as needed.

## **Student Learning Outcomes of Program**

- Facilitate evidence-based health promotion, quality, safety, and therapeutic nursing care to individuals, families, groups and diverse populations across the lifespan.
- Design, manage, coordinate, and evaluate culturally sensitive client care using effective interprofessional communication with community leaders to advocate for the health and well-being of the public.

- Synthesize theoretical and empirical knowledge from nursing, scientific, and humanistic disciplines to incorporate evidence into practice and in development of capstone project.
- Explore professional attitudes, values, and expectations about aging to design patient-centered care for older adults and their families.
- Implement the nursing roles of member/advocate of the profession, communicator, educator, utilizer of research, life-long learner, collaborator, manager, and leader to meet current and emerging needs of individuals, families, groups, and populations in diverse, complex health care systems.
- Integrate professional responsibility, accountability, standards, values, ethics, morals and legal/political aspects into caring for the health of the public.

## Admission Criteria

For acceptance into the RN-BSN program, the student must meet the following criteria:

1. Be admitted to the University (unless continuing directly from the Midway Campus ADN program).
2. Submit high school transcripts or GED score. Transfer students with more than 24 transferable hours do not need to submit a high school transcript.
3. Submit official college or university transcripts from a regionally accredited educational institution.
4. Must hold current and unencumbered registered nurse (RN) license in Kentucky or compact state.
5. Complete an admission interview with the director of the program or designee.
6. Submit a current resume.
7. Be a graduate of an ADN program from a regionally accredited institution or diploma program. Graduates of diploma nursing programs must complete the NLN Acceleration Challenge Exam and achieve a minimum score of 90 to have nursing courses converted to University credit hours. Cost of the NLN Acceleration Challenge Exam is the responsibility of the student.
8. Have a GPA of 2.5 on a 4.0 scale (2.0 on a 4.0 scale for Midway University ADN graduates).
9. Submit the following: evidence of immunizations or titer showing immunity for measles, mumps, rubella (MMR), Hepatitis B, Tdap; Varicella; Influenza; current negative tuberculin skin test or T-spot; current American Heart Association BLS for Healthcare Providers certification; and evidence of health insurance prior to beginning practica rotations to meet the health criteria of clinical facilities.
10. Students must earn a C or better in all required general education and supporting courses.

After students are admitted to the University, students complete BSN admission criteria and may be granted an interview with the director or designee of the RN-BSN program.

Please note the following:

- NSG 430 fulfills the ENG 360 requirement. 31 Hours General Education + NSG 430 (3 hours) = 34 Hours of General Education

- Students must take one business elective (300 level or higher).
- 

## **Master of Science Nursing Administration Track - Master of Science Nursing Administration Track**

**Type:**Major

The Master of Science in Nursing Degree (MSN) program is designed to prepare students as highly skilled professionals to lead educational and complex healthcare systems. Graduates will be prepared to assume increasing accountability and responsibility in both education and leadership positions. The curriculum is designed so that graduates of the program can practice in a culturally and ethnically diverse global society. Graduates will be able to effect changes in healthcare which is consistent with the mission of Midway University to prepare students for rewarding careers and responsible citizenship.

The MSN nursing administration track is designed to prepare nurses as professional leaders in a variety of healthcare settings, corporations, and communities. Students focus on professional role development, knowledge translation, quality improvement and safety, ethics and health policy, financial and resource management, and organizational leadership. Evidence-based experiences in various settings provide students with opportunities to function as nurse administrators.

### **Student Learning Outcomes of Program**

- Construct effective communication strategies for working effectively in teams and collaboratively with other health care providers.
- Synthesize best practices and organizational and systems leadership principles to promote high quality and safe patient care.
- Critique evidence with an understanding of quantitative and qualitative research to guide ethical decision-making.
- Create innovative approaches to complex issues in healthcare delivery at the local, state, and national levels based on understanding of health policy and principles of advocacy.
- Analyze current and emerging trends and technologies to support quality healthcare.
- Conduct a comprehensive systems assessment as a foundation for decision making.
- Design strategies to promote lifelong learning that incorporates professional nursing standards and accountability for practice.

### **Admission Deadlines**

Applications to the MSN program will be reviewed throughout the year. It is strongly recommended that prospective students complete the application process 2-3 months prior to the semester within which they would like to begin matriculating.

## **Admission Criteria**

### **BSN-MSN Track**

1. Complete the application process for Midway University.
2. Complete the application process for the MSN Nursing program including the following:
  - Must have BSN degree from CCNE or ACEN accredited program whose parent institution is regionally accredited. Degrees from foreign institutions will be reviewed on an individual basis.
  - Submit official transcripts from each college or university attended.
  - Recommend a cumulative grade point average of 3.0 in nursing (on a 4.0 scale).
  - Must hold current and unencumbered registered nurse (RN) license in Kentucky or compact state.
  - Submit professional resume or curriculum vitae.
3. Submit the following: evidence of immunizations or titer showing immunity for measles, mumps, rubella (MMR), Hepatitis B, TDAP; Varicella; Influenza; current negative tuberculin skin test or T-spot; current American Heart Association BLS for Healthcare Providers certification; and letter from health insurance company with evidence of health insurance prior to beginning practicum rotation to meet the health criteria of clinical facilities.

### **RN (ADN)-MSN Bridge Program**

In addition to the above admission requirements, applicants to the RN (ADN)-MSN Bridge option must have ADN degree from CCNE or ACEN accredited program whose parent institution is regionally accredited. Degrees from foreign institutions will be reviewed on an individual basis.

### **Additional Requirements**

In addition to meeting the above requirements for admission, applicants who fall into any of the following categories should supply an official TOEFL score:

1. Born outside the United States
2. For whom English is a second language
3. Have a degree or transcripts from a non-U.S. institution.

A score of 550 (paper-based), 213 (computer-based) or 79-80 (Internet based) or higher on the Test of English as a Foreign Language (TOEFL) will be required of those who are not U.S. citizens and for whom English is not a first language.

### **Guidance for Admissions to the MSN Program**

Applicants not meeting the requirements for unconditional admission may be offered conditional admission upon the recommendation of the Dean. A grade point average of at least a 2.80 on a 4.0 scale is required.

To attain full standing from conditional admission (i.e., progress beyond the first six hours of coursework) the student must complete the first six hours of course work at Midway University with at least a “B” average (3.0 on a 4.0 scale).

Exceptions to the above guidelines can be granted with permission of the Dean.

### **Degree Requirements**

1. 36 hours of graduate credits in nursing for the education track; 36 hours of graduate credits in nursing and business administration for the administration track.
2. Minimum of 30 hours of graduate credits earned in residence at Midway University.
3. Earn a minimum grade of B in all graduate nursing courses.
4. Students must meet all Midway University graduation requirements for the master’s degree.
5. Full-time students must complete degree requirements within six (6) semesters and part-time students within nine (9) semesters from time of entry into the MSN program.

---

## **Master of Science Nursing Education Track - Master of Science Nursing Education Track**

**Type:**Major

The Master of Science in Nursing Degree (MSN) program is designed to prepare students as highly skilled professionals to lead educational and complex healthcare systems. Graduates will be prepared to assume increasing accountability and responsibility in both education and leadership positions. The curriculum is designed so that graduates of the program can practice in a culturally and ethnically diverse global society. Graduates will be able to effect changes in healthcare which is consistent with the mission of Midway University to prepare students for rewarding careers and responsible citizenship.

The MSN nursing education track is designed to prepare nurses for teaching careers in schools of nursing and nursing staff development/education departments in a variety of healthcare settings. Students focus on professional role development, knowledge translation, quality improvement and safety, ethics and health policy, curriculum development and implementation, and outcome measurement and evaluation. Evidence-based experiences in various settings provide students with opportunities to function as nurse educators. This track will address the critical nursing faculty shortage in Kentucky and the United States.

### **Student Learning Outcomes of Program**

- Construct effective communication strategies for working effectively in teams and collaboratively with other health care providers.
- Synthesize best practices and organizational and systems leadership principles to promote high quality and safe patient care.

- Critique evidence with an understanding of quantitative and qualitative research to guide ethical decision-making.
- Create innovative approaches to complex issues in healthcare delivery at the local, state, and national levels based on understanding of health policy and principles of advocacy.
- Analyze current and emerging trends and technologies to support quality healthcare.
- Conduct a comprehensive systems assessment as a foundation for decision making.
- Design strategies to promote lifelong learning that incorporates professional nursing standards and accountability for practice.

## **Admission Deadlines**

Applications to the MSN program will be reviewed throughout the year. It is strongly recommended that prospective students complete the application process 2-3 months prior to the semester within which they would like to begin matriculating.

## **Admission Criteria**

### **BSN-MSN Track**

1. Complete the application process for Midway University.
2. Complete the application process for the MSN Nursing program including the following:
  - Must have BSN degree from CCNE or ACEN accredited program whose parent institution is regionally accredited. Degrees from foreign institutions will be reviewed on an individual basis.
  - Submit official transcripts from each college or university attended.
  - Recommend a cumulative grade point average of 3.0 in nursing (on a 4.0 scale).
  - Must hold current and unencumbered registered nurse (RN) license in Kentucky or compact state.
  - Submit professional resume or curriculum vitae.
3. Submit the following: evidence of immunizations or titer showing immunity for measles, mumps, rubella (MMR), Hepatitis B, TDAP; Varicella; Influenza; current negative tuberculin skin test or T-spot; current American Heart Association BLS for Healthcare Providers certification; and letter from health insurance company with evidence of health insurance prior to beginning practicum rotation to meet the health criteria of clinical facilities.

### **RN (ADN)-MSN Bridge Program**

In addition to the above admission requirements, applicants to the RN (ADN)-MSN Bridge option must have ADN degree from CCNE or ACEN accredited program whose parent institution is regionally accredited. Degrees from foreign institutions will be reviewed on an individual basis.

### **Additional Requirements**

In addition to meeting the above requirements for admission, applicants who fall into any of the following categories should supply an official TOEFL score:

1. Born outside the United States
2. For whom English is a second language
3. Have a degree or transcripts from a non-U.S. institution.

A score of 550 (paper-based), 213 (computer-based) or 79-80 (Internet based) or higher on the Test of English as a Foreign Language (TOEFL) will be required of those who are not U.S. citizens and for whom English is not a first language.

### **Guidance for Admissions to the MSN Program**

Applicants not meeting the requirements for unconditional admission may be offered conditional admission upon the recommendation of the Dean. A grade point average of at least a 2.80 on a 4.0 scale is required.

To attain full standing from conditional admission (i.e., progress beyond the first six hours of coursework) the student must complete the first six hours of course work at Midway University with at least a “B” average (3.0 on a 4.0 scale).

Exceptions to the above guidelines can be granted with permission of the Dean.

### **Degree Requirements**

1. 36 hours of graduate credits in nursing for the education track; 36 hours of graduate credits in nursing and business administration for the administration track.
2. Minimum of 30 hours of graduate credits earned in residence at Midway University.
3. Earn a minimum grade of B in all graduate nursing courses.
4. Students must meet all Midway University graduation requirements for the master’s degree.
5. Full-time students must complete degree requirements within six (6) semesters and part-time students within nine (9) semesters from time of entry into the MSN program.

---

## **NSG 101 - Introduction to Professional Nursing Concepts**

This course provides an overview of concepts that introduce the student to the BSN nursing program and baccalaureate generalist nursing practice. Students will become familiar the Essentials of Baccalaureate Education for Professional Nursing Practice (2008), National League for Nursing (NLN) Education Competencies Model (2012), and other nursing standards. The course includes an introduction of nurse theorists, evidence-based practice, client safety and quality of care, cultural and spiritual aspects, informatics, and other professional nursing concepts. In addition, the role of professional nursing in society and in the healthcare delivery system is discussed.

**Grade Basis:** L

**Credit hours:** 3.0  
**Lecture hours:** 3.0

---

## **NSG 115 - Fundamentals of Nursing**

This course is designed to introduce the nursing process and its application to basic concepts and principles of nursing assessment and care. Emphasis is placed on comprehension and knowledge of the nursing process, caring, communication and documentation, teaching/learning, and culture and spirituality. Six (6) hours of theory and eight (8) hours of clinical and required per week.

**Grade Basis:** L  
**Credit hours:** 9.0  
**Lecture hours:** 6.0

---

## **NSG 125 - Medical-Surgical Nursing**

This course is designed as an introductory-level adult medical-surgical course to develop students' application of the nursing process for adults experiencing altered health states related to all body systems. This eight-week course includes didactic, clinical, and nursing skills lab experiences. Prerequisite: Admission to the ADN Program and Grade of "C" or higher in all previous ADN nursing courses.

**Grade Basis:** L  
**Credit hours:** 5.0  
**Lecture hours:** 3.0

---

## **NSG 130 - Mental Health Nursing**

This course builds on concepts from NSG 115. In this course the nursing process is used as a tool to provide care to individuals with psychiatric disorders. Topics include therapeutic communication, psychobiology, psychopharmacology, anxiety disorders, thought disorders, substance abuse disorders, depressive, psychotic, dissociative, eating disorders, bereavement, victims or abuse and neglect and trauma. The disorders are presented in individuals across the lifespan including children and adolescents. Admission to the ADN Program and Grade of "C" or higher in all previous ADN nursing courses.

**Grade Basis:** L  
**Credit hours:** 4.0  
**Lecture hours:** 4.0

---

## **NSG 212 - Obstetric and Women's Health Nursing**

This course is designed to further develop students' theoretical knowledge and clinical application of the nursing process as it applies to women, from childbearing through

post menopause. Emphasis is on the care of the childbearing family, newborn, potential high-risk OB conditions, and care of women both pre- and post-menopause. Additional foci include: Enhancement of students' knowledge, communication techniques, and clinical judgment. This course includes didactic, clinical and nursing skills laboratory experiences. Prerequisite: Admission to the ADN Program and Grade of "C" or higher in all previous ADN nursing courses.

**Grade Basis:** L

**Credit hours:** 4.0

**Lecture hours:** 4.0

---

## **NSG 215 - Pediatric Nursing**

This course is designed to further develop students' theoretical knowledge and clinical application of the nursing process as it applies to children and childrearing families in acute care and community settings. Emphasis is on the care of sick children from birth through adolescence, the care of childrearing families, and on wellness promotion. Additional foci include: Enhancement of students' knowledge, communication skills, and clinical judgement related to the care of children and childrearing families. This course includes didactic, clinical and nursing skills laboratory experiences. Prerequisite: Successful completion of all previous ADN nursing courses.

**Grade Basis:** L

**Credit hours:** 5.0

**Lecture hours:** 5.0

---

## **NSG 225 - Advanced Medical-Surgical Nursing and Clinicals**

NSG 225 is designed as an advanced-level adult medical-surgical course to further develop students' application and analysis of the nursing process as it relates to diverse groups of clients and families with co-morbid factors and higher acuity manifestations of illness and disease. This eleven-week course includes didactic, clinical, and nursing skills lab experiences to increase the students' ability to prioritize and timely manage the care of clients and families with complex health problems in collaboration with other members of the healthcare team. Six hours of theory are required per week. In addition, a total of 72 clinical hours. Prerequisite: Earn a "C" or better in all previous nursing courses.

**Grade Basis:** L

**Credit hours:** 6.0

**Lecture hours:** 6.0

---

## **NSG 230 - Synthesis and Integrative Practicum**

This course is a 5-week, capstone course that consists of didactic instruction, discussions, and 120 integrated practicum hours to facilitate students' transition from academia into nursing practice. Upon completion of NSG 230, students will

be competent in prioritizing nursing care through applying the nursing process in managing, in collaboration with other members of the healthcare team. Classroom discussion focuses on current issues and trends encountered in professional nursing practice. Students will explore leadership styles and submit a Leadership Portfolio. Prerequisite: Earn a “C” or better in all previous nursing courses.

**Grade Basis:** L

**Credit hours:** 4.0

---

## **NSG 235 - Health Assessment**

This course is designed to enhance the nurse’s physical and psychosocial assessment skills using standardized assessment instruments for diverse clients across the lifespan. Students will begin to identify pathologic changes and make clinical inferences using nursing diagnoses. Prerequisites: Completion of NSG 101, BIO 190/191 and BIO 198/199 with a minimum grade of “C” and acceptance into the BSN program or consent of the Dean, School of Health Sciences.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

**Prerequisites:**

- [BIO 190](#) - Anatomy and Physiology I
  - [BIO 191](#) - Anatomy and Physiology I Laboratory
  - [BIO 198](#) - Anatomy and Physiology II
  - [BIO 199](#) - Anatomy and Physiology II Laboratory
  - [NSG 101](#) - Introduction to Professional Nursing Concepts
- 

## **NSG-240 - Pathopharmacology I**

This course relates normal body functioning to foundational pathophysiologic and pharmacologic concepts. Major health problems across the life- span and cultural variations are discussed with an emphasis on the vital role the professional nurse plays in the clinical application of drug therapy. Client safety and the role of information technology are applied. Systems discussed include: Fluids & electrolytes; acid/base disorders; integumentary system; head, ears, eyes, nose, & throat (HEENT) system; reproductive system; genitourinary system, neurologic system; musculoskeletal system; and implications related to prescription, over-the-counter, and herbal medications as well as drug interactions will be examined. Pre-requisites: BIO 190/191 and BIO 198/199 with a grade of C or better; and admission to the BSN Program or permission of the Dean, School of Health Sciences.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

**Prerequisites:**

- [BIO 190](#) - Anatomy and Physiology I
  - [BIO 191](#) - Anatomy and Physiology I Laboratory
  - [BIO 198](#) - Anatomy and Physiology II
  - [BIO 199](#) - Anatomy and Physiology II Laboratory
- 

## **NSG 245 - Adult Medical-Surgical Nursing I: Fundamentals**

This course is designed to assist students to apply the nursing process to foundational concepts and principles of nursing care. Emphasis is placed on knowledge and comprehension of basic human needs, nurse-client interaction, cultural competence, and measures essential for the physical and psychological comfort and safety of clients across the lifespan. The nursing care of clients and families experiencing effects of aging and death and dying, as well as alterations in spiritual health and self-concept, will be explored. Medical-surgical nursing care will be introduced for clients experiencing altered health states that relate to the integumentary, neurologic, and musculoskeletal systems; fluid, electrolyte, and acid/base balance; and chronic illnesses. Three (3) hours of theory, eight (8) hours of clinical, and one (1) hour of skills lab are required per week. Co-requisites: NSG 235 Health Assessment and NSG 240 Pathopharmacology I.

**Grade Basis:** L

**Credit hours:** 6.0

**Lecture hours:** 3.0

**Lab hours:** 1.0

**Prerequisites:**

- [NSG 235](#) - Health Assessment
  - [NSG-240](#) - Pathopharmacology I
- 

## **NSG 250 - Pathopharmacology II**

This course relates normal body functioning to foundational pathophysiologic and pharmacologic concepts. Major health problems across the life-span and cultural variations are discussed with an emphasis on the vital role the professional nurse plays in the clinical application of drug therapy. Client safety and the role of information technology are applied. Systems discussed include: cardiac system; respiratory system; gastrointestinal system; renal system; endocrine system, and implications related to prescription, over-the-counter, and herbal medications as well as drug interactions and issues of polypharmacy will be examined. Pre-requisites: BIO 190/191, BIO 198/199, NSG 240, and admission to the BSN Program or permission of the Dean, School of Health Sciences.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

**Prerequisites:**

- [BIO 190](#) - Anatomy and Physiology I
  - [BIO 191](#) - Anatomy and Physiology I Laboratory
  - [BIO 198](#) - Anatomy and Physiology II
  - [BIO 199](#) - Anatomy and Physiology II Laboratory
  - [NSG-240](#) - Pathopharmacology I
- 

## **NSG 255 - Principles of Teaching and Learning**

This course focuses on teaching/learning theories and strategies used by professional nurses to meet individual, family and community education needs. The nursing process provides a basis for planning, implementing, and evaluating teaching. The effectiveness of the baccalaureate nurse's teaching on client readmissions, and quality client outcomes is emphasized. Students analyze content, reading levels, and quality of print, web and other materials and redesign resources as appropriate. In addition, students will examine the impact of aging and co-morbid conditions on learning ability as well as age appropriate teaching strategies. Pre-requisite: NSG 101 and admission to the BSN Program or permission of the Dean, School of Health Sciences.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

**Prerequisites:**

- [NSG 101](#) - Introduction to Professional Nursing Concepts
- 

## **NSG 260 - Mental Health Nursing**

This course is designed to develop students' theoretical knowledge and clinical application of the nursing process as it applies to clients' mental health across the lifespan, such as therapeutic communication, family-centered care, crisis intervention, and psychiatric emergencies. Topics include psychobiology; psychopharmacology; anxiety, substance abuse, depressive, psychotic, dissociative, and eating disorders; and trauma. Three (3) hours of theory and nine (9) hours of clinical are required per week. Co-requisite: NSG 250 Pathopharmacology II. Pre-requisite: PSY/EDU 260 Human Growth and Development.

**Grade Basis:** L

**Credit hours:** 6.0

**Lecture hours:** 3.0

**Prerequisites:**

- [PSY/EDU 260](#) - Human Growth and Development
-

## **NSG 310 - Introduction to Professional Nursing**

This course provides an overview of concepts that introduce the student to the BSN nursing program and a professional level of nursing practice. Students will become familiar with two nursing best practice documents: the Essentials of Baccalaureate Education for Professional Nursing Practice (2008) and Recommended Baccalaureate Competencies and Curricular Guidelines for the Nursing Care of Older Adults (2010). The course includes an overview of nurse theorists, nursing research, client safety, aging and cultural aspects, health policy, and informatics. In addition, the role of professional nursing in society and in the healthcare delivery system is discussed. A BSN leadership portfolio and development of a personal philosophy of nursing are initiated. Prerequisite: Admission to BSN Program or permission of Dean, Nursing and Health Sciences.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 320 - Ethical and Legal Aspects of Nursing**

This course will discuss ethical and legal concepts relevant to the registered nurse. The content will include application of the ANA Code of Ethics, QSEN, and IOM competencies as they relate to different areas of professional nursing practice based on a framework for the development of ethical and legal competence, from recognition of an ethical or legal situation to implementation of a justifiable action. Essential communication and conflict skills will also be addressed, as well as the role of the ethics committee and ethics consultation. Course discussions will include common ethical and legal issues likely to be encountered, how to recognize and address moral distress, and ethical and legal practice as it relates to research, quality, and safety. Pre-requisite: Admission to the RN-BSN Program or permission of the Director of the program.

Upon completion, students will be able to:

- Apply the components of an ethical decision-making model to provide safe, ethical, and legal patient-centered nursing care to individuals, families, groups, and diverse populations across the lifespan.
- Describe important components of the communication process between the health care team and patients or their surrogates as a part of ethical and legal decision making.
- Explain how to promote ethical and legal nursing practices based on research evidence.
- Explore personal and professional attitudes and values as they relate to ethical and legal dilemmas.
- Employ ethically- and legally-sound decision making in the implementation of the nursing roles of member/advocate of the profession, communicator, educator, utilizer of research, life-long learner, collaborator, manager, and leader to meet current and emerging needs of individuals, families, groups, and populations in diverse, complex health care systems.

- Integrate professional responsibility and accountability into the ethical and legal aspects of patient-centered care.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 340 - Health Assessment and Clinical Inference**

This course is designed to enhance the nurse's physical and psychosocial assessment skills using standardized assessment instruments for clients across the lifespan. The functional, cognitive, psychological, and social changes unique to older adults are highlighted. Students will begin to focus on the probability of pathological change and conditions of varying complexity. Clinical inferences are recorded using nursing diagnoses. Students are expected to participate as examiners and examinees and to independently obtain individuals for final assessment check offs. Prerequisites: Completion of BIO 190/191 and BIO 198/199 with a minimum grade of "C" and acceptance into the BSN program or consent of the Dean, School of Health Sciences.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

**Prerequisites:**

- [BIO 190](#) - Anatomy and Physiology I
  - [BIO 191](#) - Anatomy and Physiology I Laboratory
  - [BIO 198](#) - Anatomy and Physiology II
  - [BIO 199](#) - Anatomy and Physiology II Laboratory
- 

## **NSG 345 - Adult Medical-Surgical Nursing II**

This course builds on concepts from NSG 245 and is designed to further develop students' theoretical knowledge and clinical application of the nursing process. Medical-surgical nursing care will be explored for clients experiencing altered health states that relate to the neuropsychological, cardiac, respiratory, gastrointestinal, endocrine, metabolic, renal, genitourinary, and reproductive systems. Three (3) hours of theory, eight (8) hours of clinical, and one (1) hour of skills lab are required per week. Prerequisites: NSG 240 Pathopharmacology I, NSG 245 Adult Med-Surg I: Fundamentals, NSG 250 Pathopharmacology II.

**Grade Basis:** L

**Credit hours:** 6.0

**Lecture hours:** 3.0

**Lab hours:** 1.0

**Prerequisites:**

- [NSG-240](#) - Pathopharmacology I
  - [NSG 245](#) - Adult Medical-Surgical Nursing I: Fundamentals
  - [NSG 250](#) - Pathopharmacology II
- 

## **NSG 350 - Perinatal Nursing**

This course is designed to further develop students' theoretical knowledge and clinical application of the nursing process as it applies to child-bearing clients and their families. Foci include: concepts of conception, genetics, pregnancy, labor and delivery, postpartum, newborn, and complications specific to this population. Three (3) hours of theory, eight (8) hours of clinical, and one (1) hour of skills lab are required per week. Prerequisite: NSG 235 Health Assessment, NSG 250 Pathopharmacology II, NSG 255 Principles of Teaching and Learning.

**Grade Basis:** L

**Credit hours:** 6.0

**Lecture hours:** 3.0

**Lab hours:** 1.0

**Prerequisites:**

- [NSG 235](#) - Health Assessment
  - [NSG 250](#) - Pathopharmacology II
  - [NSG 255](#) - Principles of Teaching and Learning
- 

## **NSG 355 - Population Health Nursing**

This course focuses on population health issues in the local and wider global communities. Discussion is framed around nursing care of aggregates of the general population. Principles of epidemiology, community characteristics, and available health services will be examined. Research findings will be utilized to design health promotion and illness prevention strategies in the delivery of care. The effectiveness of community resources in caring for clients and their families across the lifespan will be analyzed to maximize function and maintain independence. Three (3) hours of theory and three (3) hours of clinical are required per week. Pre-requisites: BIO 225 and 226 Microbiology and Lab, NSG 235 Health Assessment, NSG 255 Principles of Teaching and Learning.

**Grade Basis:** L

**Credit hours:** 4.0

**Lecture hours:** 3.0

**Prerequisites:**

- [BIO 225](#) - Microbiology
  - [BIO 226](#) - Microbiology Laboratory
  - [NSG 235](#) - Health Assessment
  - [NSG 255](#) - Principles of Teaching and Learning
-

## **NSG 360 - Pharmacology**

This course equips the student with an in-depth study of major categories of drugs. The focus is on pharmacodynamic and pharmacokinetic properties with an emphasis on the vital role the professional nurse plays in the clinical application of drug therapy across the lifespan. Pharmacokinetics of aging, issues of polypharmacy, and implications related to prescription, over-the-counter, and herbal medications as well as drug interactions will be examined. Additional content includes unique individual and cultural responses and client education needs. Client safety and the role of information technology are highlighted. Emphasis is placed on the importance of communication between nurses and members of the interprofessional team as clients transition between healthcare facilities and home. Pre-requisite: Admission to the RN-BSN Program or permission of the Dean, School of Health Sciences.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 365 - Pediatric Nursing**

This course is designed to further develop students' theoretical knowledge and clinical application of the nursing process as it applies to safe, evidence-based care of pediatric clients and their families. Foci include: concepts of growth and development, weight-based medication administration, pediatric abuse and trauma, as well as health promotion, disease prevention, and disease processes specific to the pediatric population. Three (3) hours of theory, eight (8) hours of clinical, and one (1) hour of skills lab are required per week. Prerequisite: NSG 235 Health Assessment, NSG 250 Pathopharmacology II, NSG 255 Principles of Teaching and Learning, NSG 345 Adult Medical-Surgical Nursing II.

**Grade Basis:** L

**Credit hours:** 6.0

**Lecture hours:** 3.0

**Lab hours:** 1.0

**Prerequisites:**

- [NSG 235](#) - Health Assessment
  - [NSG 250](#) - Pathopharmacology II
  - [NSG 255](#) - Principles of Teaching and Learning
  - [NSG 345](#) - Adult Medical-Surgical Nursing II
- 

## **NSG 370 - Adaptations for Mental Health**

In this course the student begins to synthesize concepts from previous coursework with theories of adaptation. Gerontological nursing competencies, evidence-based practice and client safety are underscored. Situational and maturational crises, stress,

ethical considerations, and coping in relation to mental health are integral concepts for dialogue. Discussion focuses on high-risk diverse populations of individuals, families, and communities and their adaptive responses to critical and long term complex problems. Assignments include a presentation, book/movie analysis, and case study. Students will explore group dynamics by attending various types of support groups and will reflect on their experiences with journal writing.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 390 - Teaching and Learning**

This course focuses on teaching/learning theories and strategies used by professional nurses to meet individual, family and community education needs. The nursing process provides a basis for planning, implementing, and evaluating teaching. The effectiveness of the baccalaureate nurse's teaching on client readmissions, quality client outcomes, and health care costs is emphasized. Students analyze content, reading levels, and quality of print, web and other materials and redesign resources as appropriate. In addition, students will examine the impact of aging and co-morbid conditions on learning ability as well as age appropriate teaching strategies. A health promotion project allows students to practice and demonstrate teaching skills and techniques. Pre-requisite: Admission to the RN-BSN Program or permission of the Dean, School of Health Sciences.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 410 - Community Health Nursing**

This senior level course focuses on public health issues in the local and wider global communities. Discussion is framed around nursing care of aggregates of the general population. Principles of epidemiology, community characteristics, and available health services are utilized in conducting an extensive community assessment. Students will use research findings to design health promotion and illness prevention strategies in the delivery of care to the community. Students will analyze the effectiveness of community resources in caring for clients and their families across the lifespan to maximize function and maintain independence.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 411 - Community Health Nursing Practicum**

This course is the practicum component to NSG 410 Community Health Nursing and consists of 45 precepted hours with an experienced nurse in a community health setting. Practicum experiences occur in a variety of settings and focus on care of the family and vulnerable aggregates. Students will analyze the effectiveness of community resources for families and populations across the lifespan, maximizing health promotion and disease prevention. Co-requisite: NSG 410.

**Grade Basis:** L

**Credit hours:** 1.0

---

## **NSG 430 - Introduction to Evidence Based Research**

NSG 430 emphasizes the professional nurse's role in participating in, conducting, and integrating evidence into practice. This course introduces students to the use of evidence for advancement of best practices and prepares them to read and critically appraise research findings. Students will use the research process and outcome measures to apply quality and safety concepts in identified clinical problems. Assignments include critical analysis of research evidence and a systematic literature review as the initial components of the Capstone Project. Prerequisites: Completion of MTH 245 with minimum grade of "C" or higher and admission to BSN Program or permission of Dean, Nursing and Health Sciences. This course must be completed immediately prior to the last semester of the program.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

**Prerequisites:**

- [MTH 245](#) - Probability and Statistics

**Restrictions:**

- This course must be completed immediately prior to the last semester of the program.
- 

## **NSG 435 - Evidence-Based Nursing Research**

This course emphasizes the professional nurse's role in participating in, conducting, and integrating evidence into practice. This course introduces students to the use of evidence for advancement of best practices and prepares them to read and critically appraise research findings. Students will use the research process and outcome measures to apply quality and safety concepts in identified clinical problems. Applications include critical analysis of research evidence and a systematic literature

review as the initial components of the Capstone Project. Prerequisites: MTH 245. This course must be completed immediately prior to the last semester of the program.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

**Prerequisites:**

- [MTH 245](#) - Probability and Statistics

**Restrictions:**

- This course must be completed immediately prior to the last semester of the program.
- 

## **NSG 440 - Trends and Issues**

This course is designed to examine current issues and emerging trends relevant to professional nursing. Historical perspectives as well as futuristic considerations provide the framework of study. Students will analyze the impact of an aging society on the health care system and various geriatric care models. Emphasis is placed on the evolving roles of professional nurses in the healthcare system as they relate to legal, ethical, economic, political and social issues, healthcare policy, finance, and regulatory environments. Students will explore information management and the use of health-care technology.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 445 - Adult Medical-Surgical Nursing III: High Acuity Nursing**

This course addresses care of the complex, high-acuity adult medical-surgical clients. It is designed to further develop students' application and analysis of the nursing process as it relates to diverse groups of clients and families with co-morbid factors and higher acuity manifestations of disease. Didactic, clinical, and nursing skills lab experiences are employed to increase the students' prioritization, time management skills, and interprofessional collaboration. Three (3) hours of theory, eight (8) hours of clinical, and one (1) hour of skills lab are required per week. Pre-requisites: NSG 345 Adult Medical-Surgical Nursing II.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 445 - Adult Medical-Surgical Nursing III: High Acuity Nursing**

This course addresses care of the complex, high-acuity adult medical-surgical clients. It is designed to further develop students' application and analysis of the nursing process as it relates to diverse groups of clients and families with co-morbid factors and higher acuity manifestations of disease. Didactic, clinical, and nursing skills lab experiences are employed to increase the students' prioritization, time management skills, and interprofessional collaboration. Three (3) hours of theory, eight (8) hours of clinical, and one (1) hour of skills lab are required per week. Pre-requisites: NSG 345 Adult Medical-Surgical Nursing II.

**Grade Basis:** L

**Credit hours:** 6.0

**Lecture hours:** 3.0

**Lab hours:** 1.0

**Prerequisites:**

- [NSG 345](#) - Adult Medical-Surgical Nursing II
- 

## **NSG 460 - Nursing Leadership and Management**

This senior level course focuses on the leadership roles of the professional nurse. Emphasis is placed on leadership concepts, skills and decision making in the provision of high quality nursing care and healthcare team coordination. Various leadership models and change theories will be studied. The senior capstone project, which is completed in this course, serves as a culmination of the student's baccalaureate education and illustrates the values, knowledge, skills and attitudes of the professional nursing role. This project involves a review of the literature (completed in prior courses), development/implementation of project, a formal paper, and a presentation of the project to the college and the professional community.

**Grade Basis:** L

**Credit hours:** 4.0

**Lecture hours:** 4.0

---

## **NSG 461 - Nursing Leadership and Management Practicum**

This course is the practicum component to NSG 460 Nursing Leadership and Management and includes 45 precepted hours with an executive nurse leader. The practicum experience is designed to serve as the framework for the senior capstone project and to provide opportunities to develop and practice leadership skills in a variety of health care settings. Co-requisite: NSG 460.

**Grade Basis:** L

**Credit hours:** 1.0

---

## **NSG 470 - Nursing Leadership**

This course focuses on evidence-based professional nursing leadership by the baccalaureate nurse in a constantly evolving healthcare system. Current issues and emerging trends related to legal, ethical, economic, political and social concerns; an aging society; information management and technology; healthcare policy; finance; and regulatory environments will be examined. Emphasis is placed on leadership concepts, skills and decision making in the provision of safe, high quality nursing care and healthcare team coordination. Various leadership models and change theories will be studied. Co-requisite: NSG 435 Evidence-Based Nursing Research; Pre- or Co-Requisites: BUS elective; PHIL 301 Ethics.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

**Prerequisites:**

- [NSG 435](#) - Evidence-Based Nursing Research
- [PHIL 301](#) - Ethics

---

## **NSG 490 - Synthesis/Capstone**

This is a capstone course that consists of didactic instruction, discussion, and 135 integrated practicum hours to facilitate students' transition from academia into competent and confident nursing practice. Students will refine the knowledge and skills necessary to manage care as part of an interprofessional team. This preceptorship provides the student with experiences and nursing role models that prepare them for practice in complex, changing healthcare environments. In addition, it provides opportunities for building clinical reasoning, management, and evaluation skills; increase the student's self-confidence; and develop their professional identity. The senior capstone project, which is completed in this course, serves as a culmination of the student's baccalaureate education and illustrates the values, knowledge, skills and attitudes of the professional nursing role. This project involves a review of the literature (completed in prior courses), development/implementation of project, a formal paper, and a presentation of the project to the college and the professional community. Pre-requisites: All previous BSN nursing courses. 5 credits: 2 hours of didactic per week; total of 135 practicum hours for course

**Grade Basis:** L

**Credit hours:** 5.0

**Lecture hours:** 2.0

---

## **NSG 510 - Professional Role Transition**

Built on a foundation of nursing and leadership theory and research, this course enhances the knowledge and skills through which nurses may influence the future

of nursing, nursing administration and nursing education. Students will explore the leadership and communication dynamics necessary to lead collaborative interprofessional teams that promote healthy work environments for staff and quality outcomes for clients. In addition, students will examine The Essentials of Master's Education in Nursing and other professional nursing standards. Areas of skill development include scholarly writing, presentations, and computer-based skills.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 520 - Evidence-Based Nursing**

In this course, students explore the history of Evidence-Based Practice (EBP). Students will identify current best evidence and appraise the evidence for rigor and applicability to the practice setting as well as to sustain organizational change. EPB models that promote adoption of evidence into healthcare to improve quality and safety will be examined.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 530 - Quality Improvement and Safety**

The professional nurse's role in reducing preventable healthcare errors and improving client safety will be the focus of this course. The history of quality improvement and client safety including the Institute of Medicine reports and the Quality and Safety Education in Nursing program will be examined. Students will conduct a comprehensive systems assessment to identify current practices that impede quality care and construct approaches for systems change that create and maintain a culture of quality and safety.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 540 - Ethics and Health Policy**

Nursing educators and leaders in the 21st century must practice within an ethically and legally sound framework in which they utilize evidence-based policy to influence today's changing healthcare environment. In this course students will assess current policies that influence healthcare practices through ethical and legal lenses. Content will include quality and safety in health care, public policy and advocacy, nurses as change agents, and ethical and legal aspects of nursing practice.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

### **NSG 560 - Advanced Pathophysiology/Pharmacology**

This course explores scientific complexity and integration of pathophysiologic states and utilization of pharmacologic agents for disease management. Pathophysiological mechanisms of disease will be used to explain human responses to potential and actual health problems across the life span as well as corresponding pharmacologic and nonpharmacologic treatments. Also included will be cultural implications, costs of medications, Medicare and Medicaid reimbursement for medications, and issues of dosage and generic use.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

### **NSG 570 - Role of the Nurse Administrator**

In this course, students explore the professional roles and responsibilities of the nurse administrator including interprofessional collaboration in diverse settings. Students will be encouraged to explore innovative practices in leadership roles, such as decision making, creating a culture of safety and quality, organizational behaviors, budget development, strategic planning, and effecting change.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

### **NSG 580 - Advanced Health Assessment**

This course is designed to enhance the knowledge and skills of the nurse educator to teach and evaluate health assessment in academic and primary or acute care settings. Emphasis will be on advanced systems-focused assessment and interviewing techniques including considerations for cultural variations.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

### **NSG 590 - Nursing Leadership of Healthcare Delivery Systems**

The focus of this course is organizational and systems leadership. Students will examine leadership skills needed to be an effective member and transformational leader of interprofessional teams that manage and coordinate care within today's complex healthcare systems. Concepts important in organizational dynamics including

systems theory, organizational and management theory, and chaos and complexity theories will be explored.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 610 - Informatics and Healthcare Technology**

This course examines the current standards and uses of informatics in client care delivery and healthcare systems. Electronic healthcare systems will be critiqued regarding current architecture and ethical standards, provider usability and support, and role in client safety and quality improvement. Students will develop the ability to integrate nursing science, computer science and information science to improve population health. Emerging technologies and innovations will be examined for client and provider applications in improving health outcomes.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 620 - Translational Research**

An emphasis will be placed on the critical examination of current research in the identification and dissemination of best practice for use in professional nursing roles. Content includes quantitative and qualitative research processes, critical research methods, analysis, and ethical aspects of scholarly inquiry. Data analysis techniques will be utilized to translate research into practice. Prerequisite: Statistics course.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

**Restrictions:**

- Prerequisite: Statistics course.
- 

## **NSG 625 - Curriculum Development and Implementation**

This course analyzes the professional role of the nurse educator including curriculum development in both academic and clinical settings. A variety of teaching strategies for diverse learning styles will be examined. Specific change theories will be examined in relation to development and implementation of curricula. Content will include continued competencies, educator credentialing, and the importance of lifelong learning.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 627 - Financial Aspects of Health Care**

This course will explore financial management issues important for today's nurse administrators functioning within a rapidly changing healthcare delivery system. The financial impact of administrative decisions across healthcare organizations will be examined. Topics in this course will include current trends and future directions in cost/benefit analysis, budgeting, planning and control management of the organization's financial resources, case management, population health management and outcomes, as well as use of financial management tools. In addition, data that influences third-party reimbursement, such as client outcomes and client satisfaction, and their impact on healthcare financing will be investigated.

**Grade Basis:** L

**Credit hours:** 3.0

**Lecture hours:** 3.0

---

## **NSG 635 - Outcome Measurement and Evaluation in Education**
